24:OURS is a creative agency and platform for music, media, art+ whatever else we feel like doing.

CREATING *A CONNECTION*

Focusing on the music.

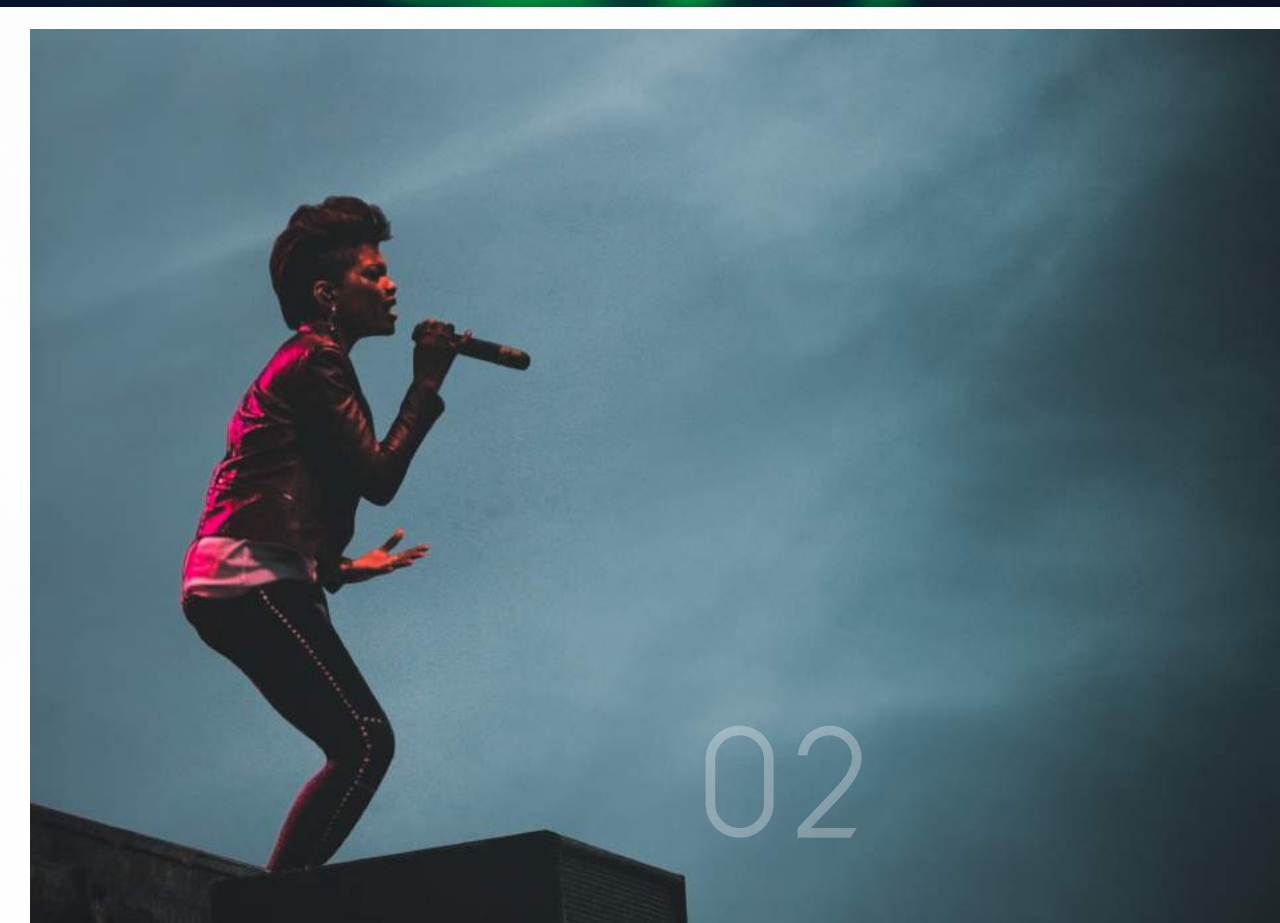

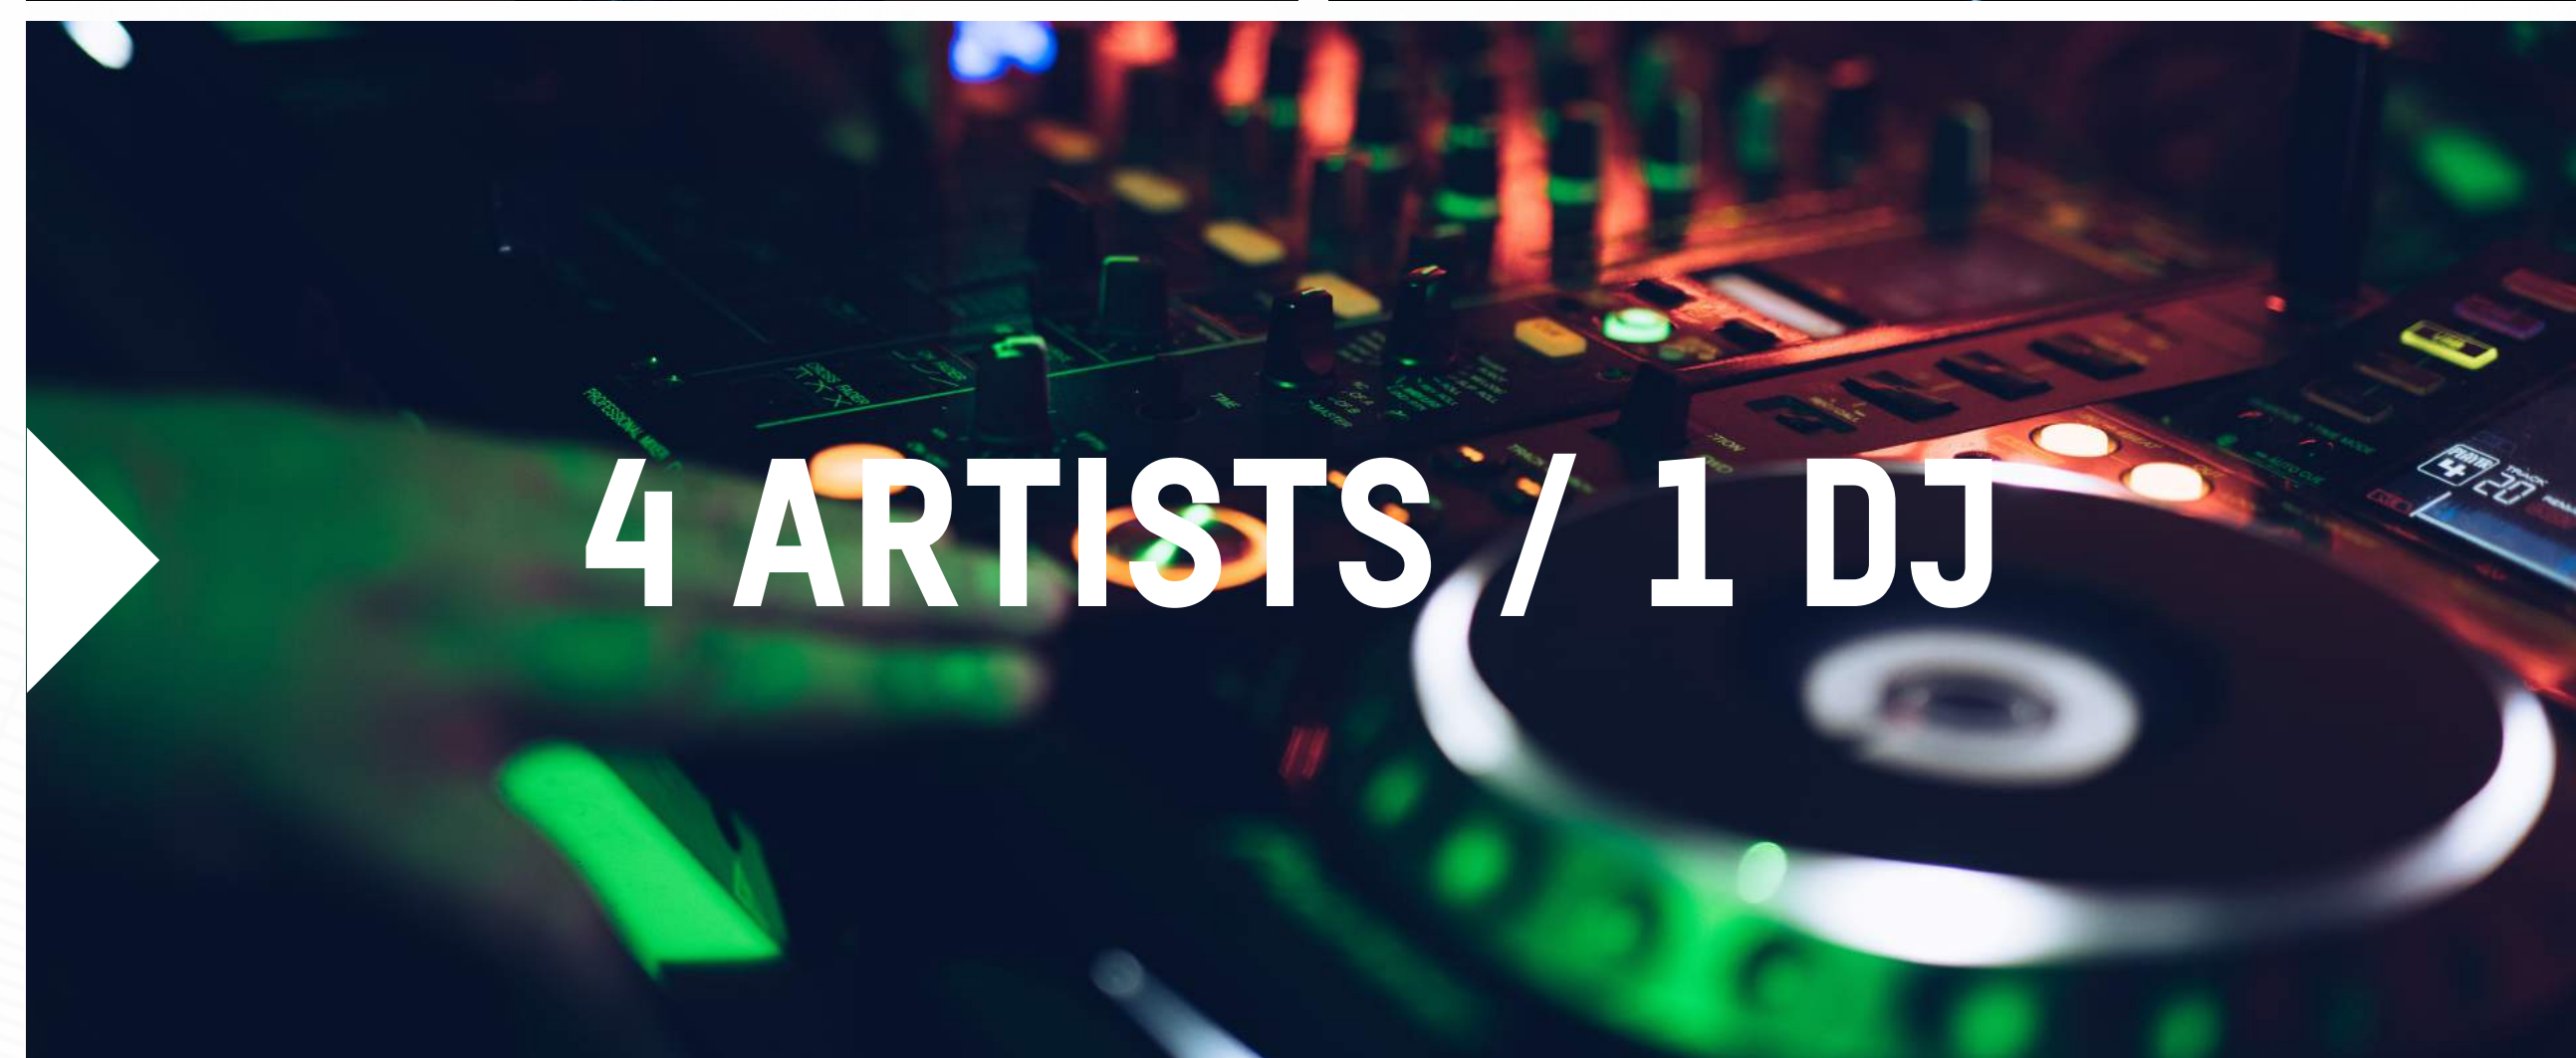

TheLoftSessions is an intimate concert that transcends genres that is free and open to all ages.

Music, like anything, is about connection. Connection is easier and deeper with less clutter—less space, a smaller crowd, and less technological distractions.

With intimacy comes trust and with trust comes love. And yes, we're still talking about music...

The most enjoyable concert is the one where you are most connected. Where music is the focus.
